La Sommeliere - 33 Bottle Dual Zone Wine Cooler - SLS33DZ Black

La Sommeliere are a mid to premium range wine cooler and wine cabinet manufacturer, focusing on service cabinets for both home and domestic use. With over 20 years experience in the industry and distribution throughout 60 countries around the world, La Sommeliere are synonymous in the wine cooler industry.

Dual zone freestanding wine cooler

The SLS33DZ is a dual zone wine cooler suitable for storing red and white wines, it is a freestanding wine cooler so we recommend at least 2-3 inches of ventilation space around the sides and minimum 12 inches from above. The temperature zones can be programmed to between 5 and 14°C in the Upper zone and 12 and 18°C making it suitable for both red and white wines.

Bottle capacity and wooden shelves

The SLS33DZ has a maximum capacity of 33 bottles, 15 Bordeaux bottles in the top section and 18 in the lower section. The semi sliding shelves make the bottles easily accessible and are illuminated by white LED lighting which can be turned on or off.

Noise level and efficiency

This model is a fan assisted wine cooler with a operating noise of 42dB, which is a quiet running unit and won't be too intrusive in any environment. The SLS33DZ is very energy efficient with an energy rating of A, using very little energy of approximately 134kWh/annum.

INSTALLATION

The SLS33DZ is a freestanding wine cooler, the method in which this unit cools means the cooling system is mounted in the side walls - this means it requires at least 2-3 inches of ventilation space around the sides and at least 10-12 inches above - this unit is not suitable for undercounter use.

Additional features and benefits of the SLS33DZ:
